Academic qualifications

(officially assessed and recognised):

Bachelor of Mechanical Engineering, 1970 (Belgrade)

Master of Technical Sciences, 1986 (Belgrade)

Doctor of Technical Sciences, 1992 (Belgrade).

Work History

Since coming to Melbourne in 1985, VI worked two years as a [Senior Advisor, Advisor and Senior Systems Engineer](#) for a major computer vendor, and spent next 11+ years in [various senior management, principal consulting and management roles](#) with a major Australian bank in Melbourne.

In 1998 VI started his [IT Risk management and Art Photography business](#) and left the bank in June 1998.

At the University of Melbourne VI was a [Visiting Expert Lecturer in Risk Management](#) for a Post-Graduate course since 1998. This IT Risk Management course he created, introduced with [Prof. Moshe Zukerman](#) for their PG courses and successfully ran it up to 2002, when he had to temporarily stop this engagement due to important medical commitments in the family.

Before 1985, VI was the [acting Managing Director](#) and at the same time, [the EDP Manager](#) for a major Computer Services organization in the Former Yugoslavia, and [external consultant](#) to a well known computer vendor there.

VI co-authored a book on IT Risk Management entitled the '**INFORMATION TECHNOLOGY RISK MANAGEMENT SYSTEM (ITRIMAS)**', which was published in 1996 by Pitman /Longman Publishers in Melbourne.

This book was favourably reviewed and recommended by **KPMG - Melbourne** as "*the definitive system for all Information Security, Disaster Recovery and Business Recovery Practitioners*" and "*a significant formal contribution to the body of knowledge known as IT Risk Management*".

Major posts and responsibilities

Compliance and HR Risk Management; Performance Measurement and Support; Business Recovery; Access Control, Security Services, Disaster Recovery Planning; IT Risk Management; Architecture Planning, Manufacturing and Production Control Systems consulting.

Awards and Achievements

VI's contribution in all areas of people, process and technology management was regularly assessed as **Outstanding or Excellent** and the **relevant people management and mentoring skills** in the **turbulent times of mission-critical business changes** were **highly valued** by executive management, staff and external auditors and vendors.

During his 11+ years with the bank, VI **designed and implemented a new IT Disaster Management & Recovery Strategy**, which was an offspring derived from his doctoral thesis. This strategy was invoked more than once, and in particular in 1992, to protect the Bank's well-being and business.

For its implementation, the Bank's Disaster Management Teams and VI **were officially rewarded by the Bank's Executive Management and personally congratulated by the Bank's CEO and external auditors (KPMG)**.

Health and Personal Interests

VI is a **very fit**, hard working and honest person. His hobbies are Art Photography, Photoshop Digital Imaging, history of Swiss watch-making industry and basketball. He still plays basketball with his son, grandsons, and colleagues.

References

All relevant written **assessments, references, work history and testimonials will be personally provided within the Detailed CV** during meetings with potential employers, customers or clients.
